EV Overview

- 'Leading the charge' in fleet electrification with **236** EVs in operation at **29** sites in **9** states
 - California, Colorado, Washington, Illinois, Indiana, Idaho, Arizona, Oregon, Texas
- Largest footprint in Southwest, West, and Northwest
- Uniquely positioned to help municipal and franchise fleets meet sustainability goals
 - 1st fully electric residential collection fleets in Colorado and California

San Pablo, California

Why EV

Customer

- Improved sustainability profile
- Regulatory requirement
- Safer communities

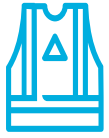

Driver

- Safety
- Improved in-cab experience
- Driver retention

Environment

- Zero vehicle emissions
- Reduced noise impacts

Innovation Partner AdvanCity™

Advanced Safety

Smarter safety protecting drivers and communities

Data & Insights

Greater visibility that keeps your community informed

Sustainability

Industry-leading low (CNG) to no (EV) emission fleet

Emergency Response

Be ready for anything — natural disasters to spills

Self-Service

Residents manage service and track trucks online

Emissions Avoided / Truck

1,750+

tree seedlings
grown for 10 years

12,000+

gallons of gasoline

California EV Policy Evolution

ACF Policy driving EV adoption

2024

- ACF (2 pathways)
- Model Year Schedule vs. Milestone

2025

- Uncertainty around authority
- Feasibility concerns rise

2026

- Rules remain, federal backing is unclear
- Focus shifts to feasibility and infrastructure

ACF - 2 Compliance Pathways

ZEV Milestone
comply by hitting
annual % targets

Model Year
comply as you replace
your fleet

Lessons Learned

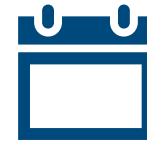

**Evolving
Policy**

**Infrastructure
Readiness**

**Utility
Timelines**

**Operations vs
Planning**

**Early
Funding**
